*"Israel does not spy on the United States of America."
-- Mark Regev, a spokesman at the Israeli embassy in Washington*

Prior to 9/11, the FBI had discovered the presence of a massive spy ring inside the United States run by the government of Israel. This seems a harsh gratitude from a nation which obtains 10% of its annual budget from the American taxpayer, \$3+ billion a year. Over the years, American taxpayers have been required to send Israel more than four times what the US spent to go to the moon.

What Israel has done in return was to set up government subsidized telecommunications companies which operate here in the United States. One of these companies is Amdocs, which provides billing and directory assistance for 90% of the phone companies in the USA. Amdocs' main computer center for billing is actually in Israel and allows those with access to do what intelligence agencies call "traffic analysis"; a picture of someone's activities based on a pattern of who they are calling and when. Another Israeli telecom company is Comverse Infosys, which subcontracts the installation of the automatic tapping equipment now built into every phone system in America. Comverse maintains its own connections to all this phone tapping equipment, insisting that it is for maintenance purposes only. However, Converse has been named as the most likely source for leaked information regarding telephone calls by law enforcement that derailed several investigations into not only espionage, but drug running as well. Yet another Israeli telecom company is Odigo, which provides the core message passing system for all the "Instant Message" services. [Two hours before the attacks on the World Trade Towers, Odigo employees received a warning.](#) Odigo has an office 2 blocks from the former location of the World Trade Towers.

"I think there is very compelling evidence that at least some of the terrorists were assisted not just in financing -- although that was part of it -- by a sovereign foreign government... It will become public at some point when it's turned over to the archives, but that's 20 or 30 years from now."

-- Senator Graham as quoted in [Senator: At Least One Foreign Country Assisted the 9/11 Terrorists](#)

Let us be clear here. There is nothing benign about Israel spying on the United States. When Jonathan Pollard stole our nuclear secrets (which your taxes paid to develop) and sent them to Israel, Israel did not hesitate to trade those secrets to the USSR in exchange for increased emigration quotas.

The implication of these facts is that the billions of our tax dollars sent to Israel (while women and children sleep in America's alleys and eat out of trash bins) have bought and paid for a monstrous phone tracking and phone tapping system that can eavesdrop on almost any phone call in America. Even the White House phones were open to such tapping by listening in on the other end outside the White House itself.

This actually happened. The Ken Starr report on Whitewater describes how Bill Clinton informed Monica Lewinsky that their phone sex conversations had been recorded. At the same time, Clinton ordered the FBI to cease the hunt for an Israeli mole known to be operating inside the White House itself!

So here we have a foreign nation able to listen in on most phones at will, using taps that cannot be found because they are built into the phone system itself, and willing to use the information gleaned from those calls to [blackmail Americans into any desired course of action](#). This may well be what Ariel Sharon meant when [he stated that the Jewish people control America](#).

That the information gleaned from these phone taps is being used to coerce the behavior of key

individuals in the US Government and media is illustrated by the manner in which the government and the media have handled this scandal of the largest spy ring ever uncovered inside the United States, and of phone taps on all of our phones. They are downplaying it. Actually, burying it is a better word.

Fox News, alone of all the media, actually ran the story as a four part broadcast, and put the story up on its web site. Then, without explanation, Fox News [erased the story from their web site](#) and have never mentioned it again. CNN followed by "[Orwellizing](#)" their report of the two hour advance warning of the WTC attacks sent to Odigo employees. But far more telling is the admission made by a US Official in part one of the Fox News report that hard evidence existed linking the events of 9/11 not to Arab Muslims, but to some of the more than 200 Israeli spies arrested both before and after 9/11, but that this evidence had been CLASSIFIED.

"Investigators within the DEA, INS and FBI have all told Fox News that to pursue or even suggest Israeli spying ... is considered career suicide."

-- [Carl Cameron, as quoted in The Spies Who Came In From The Art Sale](#)

Since then, any and all mention of the Israeli spy ring and phone tapping scandal has resulted in a barrage of shrill screams of "hate" and "anti-Semite", two well worn and frankly over used devices to try to silence discussion on any topic unfavorable to the nation which owns the spy ring in question.

The story of the uncovering of the largest spy ring ever discovered inside the United States should be the story of the century, if indeed the US media is looking out for the best interests of the American people. That this spy ring helped drug smugglers evade investigators should be a major scandal, if indeed the US media is looking out for the best interests of the American people. That the spy ring includes companies able to track and tap into any phone in America, including the White House, should be a cause celebre', if indeed the US media is looking out for the best interests of the American people.

But they are not. The media is trying to bury this story. They are spiking it, erasing it from their web sites in a chilling real-life Orwellian rewriting of history.

"While I agree with you, if I say anything about US geopolitical interests with Israel, I might as well clean off my desk."

The actions of the US media are those of people trying to protect this spy ring and those that the spy ring worked for.

-- [Unnamed reporter as quoted in American Media Censorship and Israel](#)

The actions of the US media are those of traitors to the American people.

WHY IS THE US GOVERNMENT COVERING UP THE LATEST ISRAELI SPY RING? WHAT WAS THE ISRAELI SPY RING DOING THAT IS SUCH A THREAT TO THE US GOVERNMENT THAT THEY WOULD RATHER HAVE OVER A HUNDRED SPIES ESCAPE THAN RISK A PUBLIC TRIAL?

"Evidence linking these Israelis to 9/11 is classified. I cannot tell you about evidence that has been gathered. It's classified information."

-- [US official quoted in Carl Cameron's Fox News report on the Israeli spy ring and its connections to 9-11.](#)

Hundreds of Mossad Agents Caught

Running Wild in America!

More holes in US electronic security

The story on Israeli spying inside the focused on three companies, Amdocs, which provides billing and directory assistance for most American phone companies, Comverse Infosys, which installs and maintains telephone tapping equipment for US law enforcement, and Odigo, which provides services for the various "Instant Message" systems on your computer. All three companies are owned by Israel and have strong ties to the Israeli Defense Force.

Both Amdocs and Comverse Infosys were implicated in the sale of telephone data which compromised US investigations into drug running, and Comverse Infosys phone taps are suspected of being the means by which Bill Clinton's phone sex sessions were recorded, as reported in the Ken Starr Report. Odigo, which had offices near the World Trade Towers, is the company which received a two hour advance warning of the attacks of 9-11.

Now, in a chilling real life version of the plotline from "The Net", it turns out that the majority of the firewalls on US corporate and government computer systems are provided by just one company, Checkpoint Systems, which like Amdocs, Comverse Infosys, and Odigo, is [headquartered in Israel](#).
